Gentlemen:-

In response to your letter of the 13th. stating with regard to the American Journal of Numismatics that of Volumes 52 and 53 for which you had paid, the Kansas City Public Library claims not to have received Volume 53.

Volume 53 was issued in two parts which were mailed separately at a considerable interval by our Boston printer, T. R. Marvin & Son. I believe if your client will examine their files they will find these two parts in hand. It was our intention to publish a third part of this volume, and for that reason the Library would have held those other two unbound issues. If a third part is printed it will be sent but the prospects now are remote. As these two parts are sold separately at three dollars each, we do not feel that there is any rebate possible under the circumstances. If your client on examination finds that they have not and did not receive these two parts, I will have substitute ones sent them.

Thanking you for bringing the matter to our attention, and trusting this arrangement will be satisfactory, I am,

Yours very truly,

Secretary.
